Quick Read

The overall economy of the country suffered a setback in 2013 mainly due to the issuance of stricter and prudential norms on risk weight percentages advised by the Royal Monetary Authority of Bhutan in June 2013. While this was subsequently withdrawn in the third quarter of 2013 and more modest changes were implemented, banks in the interim were forced to restrict their lending particularly in the areas of mortgage and vehicle loans.

BoBL however, could maintain a reasonable profit growth of 1.94 % from that of 2012 amounting to Nu.672.96 million in 2013. It is perhaps, one of the main reasons for the confidence and trust of most Bhutanese individuals and agencies, enabling the bank to be the most preferred financial service provider in the country.

The Bank also achieved a modest growth of 2.62% in its loans and advances from Nu. 17.45 billion in 2012 to 17.90 billion in 2013, but its deposits base saw an impressive growth of 7.23% from Nu. 23.69 billion in 2012 to 25.54 billion in the year 2013.

Chairman's Report

The Board is pleased to present the 46th Annual Report of your Bank with the audited Balance Sheet, Profit & Loss Account, and the Report on Business and Operations, for the period January 1 - December 31, 2013 (FY13).

1. INTRODUCTION

The financial sector increasingly constitutes an important pillar of the country's socio-economic development. The financial and insurance sector alone contributed to 5.74% of the GDP in 2012-2013 (National Accounts Statistics, 2013, NSB, RGOB). The country's overall economy saw a very modest growth in 2012-2013 with its GDP growth at 4.60% relative to its GDP growth of 8.60% in 2011-2012.

Despite this, BoBL's deposit base saw an impressive growth of 7.23% from 2012, clearly indicating the people's confidence in the Bank, which ultimately resulted in a marginal revenue growth of 1.89% over2012.

The overall economy of the country suffered a setback in 2013 mainly due to the issuance of stricter and prudential norms on risk weight percentages advised by the Royal Monetary Authority of Bhutan in June 2013. While this was subsequently withdrawn in the third quarter of 2013 and more modest changes were implemented, banks in the interim were forced to restrict their lending particularly in the areas of mortgage and vehicle loans.

BANK OF BH

BoBL however, could maintain a reasonable profit growth of 1.94% from that of 2012 amounting to Nu.672.96 million in 2013. It is perhaps, one of the main reasons for the confidence and trust of most Bhutanese individuals and agencies, enabling the bank to be the most preferred financial service provider in the country.

The Bankalso achieved a modest growth of 2.62% in its loans and advances from Nu. 17.45 billion in 2012 to 17.90 billion in 2013, but its deposits base saw an impressive growth of 7.23% from Nu. 23.69 billion in 2012 to 25.54 billion in the year 2013.

The overall growth of BoB has been very marginal and some notable reasons for this are:

 i. Changes in RMA regulations made the Bank suspend the loan products for almost three months;

ii. Housing loan sector was saturated and the bank could not provide further loan for housing;

iii. There has been a ban on import of any kind of vehicles.

However, the deposits figure saw an impressive growth due to the effort put in by the Bank for deposit mobilization.

2. FINANCIAL RESULTS

The fiscal year of 2013 had been a challenge for the Bank with a setback in the economy of the country, coupled with strict monetary control measures adopted by the Royal Monetary Authority of Bhutan. However, due to continued improvements in core banking operations and cost control measures, the Bank has been able to sustain and enhance the financial performance with very stable earnings.

In summary, the Bank registered a total income of Nu. 2,176.40 million and Net Profit of Nu.672.96 million in the financial year 2013 against Nu.2,123.11 million and Nu.660.38 million in total income and net profit respectively the previous year.

Credit growth of all commercial banks in Bhutan had been showing a decelerating trend in 2013 on the back of elevated inflation, economic slow-down due to INR-shortage and intensification of supply-side constraints and monetary policies. Despite all these unfavorable economic conditions, your bank achieved growth of 2.62% in loans & advances and 7.23% in deposits.

The Gross Non-Performing Assets (GNPA) and Net Non-Performing Assets (NNPA) stood reasonably low at 6.88% and 1.48% respectively.

3. DIVIDEND

The Bank has adopted consistent dividend policy of balancing the twin objectives of appropriately rewarding shareholders and retaining capital to maintain a healthy capital adequacy ratio to support future growth.

With this and in recognition of the robust performance during 2013, the Board has approved a dividend of 50.52% for the year ended December 31, 2013 with total dividend amount of Nu 340.0million to its shareholders.

4. CAPITAL & RESERVES

The total capital and reserves increased by 10.84% during the year. It increased from Nu.3,204.92 million in 2012 to Nu.3,552.38 million in 2013.

Management's Report

1. INTRODUCTION

The past year operations was certainly challenging due to the slowing down of economic activity brought on by the widening Balance of Payment situation with India resulting in some stringent monetary measures implemented by the central bank. Despite these challenges, the Bank of Bhutan (BoB) managed to perform slightly better than the previous year in its financial achievements. Profit after tax grew by 1.94%, Return on assets declined due to issuance of bonus shares to enhance capital for future business growth, while return on equity remained more or less the same.

Despite its best efforts, BoB's Asset quality deteriorated slightly with the Gross NPA increasing to 6.88% from 3.90% of the previous year, and Net NPA increasing to 1.48% from 1.36% for the same period. The trend was industry wide brought on by the overall slow-down in the economy. To sustain growth, BoB continued to widen its reach through establishment of multiple channels such as branch office expansion, ATMs installations, and introduction of IT based delivery channels. Conscious of its social responsibility obligations, BoB also engaged in facilitating CSR activities such as blood donations and tree plantations. Also recognizing human resource to be one of the important

elements in developing capabilities to adapt to future challenges, BOB has taken a number of measures geared towards developing and grooming future leaders by providing learning opportunities to the employees.

Corporate Office moved to Thimphu

Based on Board directives, the corporate office of the bank was moved to Thimphu from Phuentsholing in July 2013. With most stakeholders being located in Thimphu, the bank management was required to travel to Thimphu frequently to attend meetings and consultations. Being based in Thimphu would also allow the management to interact closely with decision makers, regulatory authorities and major clients.

4. TECHNOLOGY & COMPUTERIZATION

Since the adoption of the Core Banking Solutions (CBS), BOB has been facing teething problems which has been affecting the efficiency of the bank. Following discussions with the vendor; M/s Oracle Financial Services Software (OFSS), expert resources were deployed onsite by OFSS to analyze the problems. The main objective of the exercise was to look into the CBS issues and to analyze the root cause of the problems encountered by the bank and find a permanent solution. The consultants identified 20 issues varying in degree of criticality analyzed by two onsite consultants.

Following the exercise, some critical issues that had been plaguing the bank were solved while a couple are still pending and expected to be resolved soon.Time taken to conduct 'End of Day' operations were substantially reduced to 4-5 hours. 1. Internal Control:

1.1 Unmatched entries have been noticed in Branch Clearing General Account Nu. 32,566,924 Debit, details of which is given hereunder:

Total debits: Nu. 259,599,830

Total credits: Nu. 227,032,906

It is suggested that effective action should be taken to clear all such unmatched entries at an early date.

Replies of the Management:

- 1. The suggestion is noted. The management is fully aware of the issues and is taking corrective action.
- 2. for the large value transaction above Nu. 1 Million, adjustment to the balance sheet has been carried out and the final balance sheet reflects the net figure of Nu. 32,566,924.44 Dr.
- 3. We have reviewed the outstanding entries and no material entries are outstanding which affect the P&L.

Further comments of the Auditors: Noted.

1.2 Balances with State Bank of India include certain unmatched entries for debit Nu. 40,165,155 and credit Nu. 95,939,906 account-wise details of which are as under:

Account Pa	articulars	Debit Nu.	Credit Nu.

Replies of the Management:

The suggestion is noted. The management is fully aware of the issues and is taking corrective action.

Further comments of the Auditors: Noted.

1.6 We have noticed overdrawn (debit) balances under Savings Deposit Accounts and Current Deposit Accounts to the tune of Nu. 941,253 and Nu. 440,867 respectively as on 31st December, 2013. Although the Bank does not have any scheme of allowing overdrawings against Savings and Current Accounts, we have been informed that such overdrawings had been allowed due to lack of effective control in the Computer installations (CBS). We have also been informed that management has taken steps to block such overdrawings and also to recover the money from the customers. It appears that extent of recoverability of the amount is not presently ascertainable.

This reveals serious loophole in the system of internal control through Computer installations.

Replies of the Management:

- 1. The Dr balances have been fully provided for. However, the efforts to recover the outstandings continue.
- 2. We believe that the system fix which has been implemented recently, is working satisfactorily and no new accounts have been overdrawn in the last three months.
- 3. We have noted the suggestion and we will continue to monitor the situation

Further comments of the Auditors: Noted.

1.7 A major fraud was discovered by the Management during the year at Punakha Branch, involving embezzlement and loss of fund to the tune of Nu. 6,924,521.71 details of which were as under:

We have been informed that above were committed by 4 employees of the Bank over a period of time. We have also been informed that the above occurred due to unauthorised access to the Computer applications. We note that the Bank has taken effective steps to prevent occurrence of such fraudulent activities through system applications in future. Also Bank has made adequate provision for the loss.

Replies of the Management:

- 1. As soon as the bank detected the fraud and embezzlement of money by the employees, all appropriate measures of suspending of the accused as well as filing criminal charges was done. The case being fraud and embezzlement it happened to be under the purview of the ACC and accordingly the ACC has taken the case, sanitized our findings and forwarded the case to the OAG for prosecution. The case has been filed and the hearing/recovery suit/litigation is in full swing at the Punakha Dzongkhag Court.
- 2. Being prudent and taking on board the suggestions, we have made a provision of approximately Nu. 5.7 million. Of the amount shown above Nu. 500,000 under Sl. 5 has been recovered and some other amounts has also been adjusted.
- 3. The fraud was perpetrated by key staff of the branch who consciously violated the banks rules and procedures in collusion. The bank has since strengthened its internal controls and processes to ensure that such fraud do not recur in future.

Further comments of the Auditors: Noted.

Investigation is ongoing to clear the balance outstanding entries and also a review of the process to ensure that such outstanding entries do not remain for long.

Further comments of the Auditors: Noted.

2.2 Other Liabilities and Provisions also include following amounts which remain unadjusted:

BANK OF BHUTAN 88 ANNUAL REPORT 2013

Unclaimed Balance

Nu. 1,861,187

Nu. 11,562,365

Unclaimed Credit received from Axis Bank Nu. 5,112,922. (since 2007-08)

Matured FDR

It is suggested that action should be taken to liquidate the above.

Replies of the Management:

- 1. Efforts are ongoing to clear the balance outstanding entries.
- 2. The unclaimed amount received from Axis bank represents transactions where the beneficiary details are unavailable despite our best efforts. Same will be paid out when there is any claim and after conducting due diligence.
- 3. The unclaimed matured FD represents FD's matured and not claimed by the beneficiary. Beneficiary details are unavailable. Same will be paid out when there is any claim and after conducting due diligence.
- 4. The unclaimed balance figure of Nu. 1,861,187.34 represents excess cash found over the years. The management will seek guidance from the Board on disposing off this amount.

Further comments of the Auditors: Noted.

3. <u>Overdrafts and Loans:</u>

3.1 In course of our scrutiny and review of loans and overdrafts we have noticed certain common deficiencies in almost all the Branches visited by us with regard to documentations for the loans and overdrafts. We feel that such lacunae in documentation should be addressed immediately and the Branches should be asked to comply with all the procedures adopted by the Bank relating to loan appraisals and document the same adequately.

Replies of the Management:

Observation noted. Branches have been instructed to rectify

Further comments of the Auditors: Noted.

3.2 We have noticed that in certain Branches the balances of loan as per Statement generated by the Computer do not reconcile with the General Ledger balances, particularly in Thimphu Main, Paro and Wangdi Branches. We suggest that the issues should be taken up immediately.

Replies of the Management:

The observation is valid.

The bank has implemented several reporting mechanism viz. Internet Banking, Flexcube Host (Canned Reports), Desktop Intelligence (Fat Client), Business Objects Infoview (Thin Client-Web Based) initially. The bank is standardizing the report generation process so that such discrepancy does not occur.

Further comments of the Auditors: Noted.

3.3 We have noticed that as per Loan Statement if Borrowers generated by CBS, the interest applied and the interest paid as per EMI, in some cases, do not match resulting in negative balances of interest in the accounts of such Borrowers. At times negative balances of interest appear even though there is no outstanding principal amount. As a result of above mismatch in the CBS Loan Statement, the break up of outstanding Principal and Interest as per RMA Statement (generated for the purpose of provisioning) do not match with those as per **CENEDATE**. However, total

BANK OF BHUTAN 89 ANNUAL REPORT 2013

outstanding does tally. This should be immediately addressed and set right at the earliest.

Branches: Thimphu Main, Paro, Wangdi, Punakha, City.

Replies of the Management:

We acknowledge the observation. During implementation of the CBS, there was some issue with data migration due to which some accounts have a mismatch. Mismatch data is being taken up on a case by case basis.

Further comments of the Auditors: Noted.

3.4 We have noticed certain specific observation in respect of loans and overdrafts pertaining to the Branches visited by us, details of which are given in Exhibit – A.

Replies of the management: Replies have been given under specific observations.

Further comments of the Auditors:

4. <u>Fixed Assets:</u>

4.1 We have observed that in most cases code numbers have been indicated on the individual assets but such code numbers have not been indicated in the Assets Register as a cross reference. We would suggest that cross reference of code numbers should be indicated in the Assets Register. This would facilitate reconciliation of assets.

Replies o the Management:

As pointed out, the code numbers are not reflected in the Assets Register as of now. However, the Management from now onwards shall stipulate code numbers in the Assets Register for the purpose of cross reference and record. Further, the same is being planned to cover in the Enterprise Resource Planning (ERP) as the same is in the process of adoption in the bank.

Further comments of the Auditors: Noted.

4.2

It has been noticed that in Paro Branch fixed assets include certain damaged / stolen items which have not been removed from Fixed Assets and depreciation on the same continue to be charged. We feel that depreciation on non-existent asset should not be charged. We have been informed that a list of such assets has been sent to Head Office for obtaining approval for disposal. We would suggest that such assets should be taken out of the Assets Register and a separate record maintained for the same.

Replies of the Management:

The Management was fully cognizant of the above issue prior to the observation made by the auditors. Therefore, in order to address this issue, the Head Office has already collected all the details of such items.

To ascertain the facts and figures, a thorough verification exercise on such assets was completed. Upon completion of the final review and verification by the Head Office, the proposal to this effect shall be submitted to the Board for write-off/disposal.

Further comments of the Auditors: Noted.

BANK OF BHUTAN 90 ANNUAL REPORT 2013

5. <u>Cash:</u>

5.1 We have conducted physical verification of cash at the Branches visited by us. In course of our physical verification of ATM cash we have noticed differences, details of which are given in Exhibit – B.

Replies of the Management:

- 1. Due to connectivity issue between the ATMs and the data centre sometimes account is Dr. but cash is not physically dispensed hence generation of excess cash cannot be ruled out. This is however monitored and the bank has a process to account for such instances.
- 2. For shortage of cash, we are examining the issue from the system and we are proposing to put in place a preventive system shortly.

Further comments of the Auditors: Noted.

5.2 In respect of following Branches, the Branches have exceeded Cash Retention limit on different dates during the year:

Bazar, Gomtu and Gedu.

Details of such cases have been indicated in Exhibit - C.

Replies of the Management: We have noted and will shortly put a system of reporting, approval and insurance cover.

Further comments of the Auditors: Noted.

- 6. <u>Stationery and Security Forms:</u>
- 6.1 No Stationery Stock Register has been made available to us at the Punakha Branch. We suggest that immediate steps should be taken to maintain a Stationery Stock Register in order to exercise adequate control over stationery and security form items.

Replies of the Management: Noted and register has since been introduced.

Further comments of the Auditors: Noted.

In conclusion, we would like to place on record our grateful appreciation for the courtesy and co-operation extended to us at levels of the Management of the Bank.

BRANCH-WISE OBSERVATIONS ON APPRAISALS AND DOCUMENTATIONS OF LOANS AND OVERDRAFTS

Wangdi Branch:

 Relevant Mortgage Deed in respect of House Loan of Nu. 2 million sanctioned to Lekimo on 3/9/2010 (Account No. 013 MORT 00101) was not made available to us. Present outstanding amount in this account is Nu. 1,524,574.09.

Replies of the Management: Branch instructed to obtain and submit.

Further comments of the Auditors: Final comment would be made on verification of Mortgage Deed.

(ii) Home Loan of Nu. 4.5 million was originally sanctioned 7/10/2009 to Kinley Wangmo. The borrower requested to increase the loan on 3 occasions and the said loan was increased on 3 occasions to 5.4 million, 6.4 million and finally to Nu. 7.4 million on 4/11/2011. The value of security remains at Nu. 8.19 million, such increase of loan have resulted in reduction of margin of safety from original 40% to present 9.5%. Construction of the building was completed in November, 2011 and hence justification for increase of loan made in November, 2011 could not be ascertained. Repayment schedule for principal loan commenced from January 2012.

Replies of the management:

Observations noted. BOBL engineer has been deputed for revaluation.

Further comments by the Auditors:

Matter would be reviewed on obtaining revaluation of the Engineer.

Punakha Branch:

Overdraft of Nu. 2,500,919 in the name of Tenzin Dendrup (Account No. 40102077044030011) remain outstanding. Loan was sanctioned on 11/02/2011 for Nu. 2,500,000. Loan expired on 31/03/2013 and last reminder was posted on 25/4/2013. No legal action has so far been initiated.

Replies of the management:

The client has a legal issue with the Department of Revenue & Customs and therefore renewal of clients license is pending. Branch has been instructed to serve legal notice.

Further comments of the Auditors: Noted.

BANK OF BHUTAN 92 ANNUAL REPORT 2013

(ii) Home Loan of Nu. 3 million was sanctioned in the name of Tshewang Pelden, secured against Land and 3-storied Building under construction. The construction had been completed but no insurance document was available on record for the above.

Replies of the management: The insurance has expired and have requested the client to renew.

Further comments of the Auditors: Noted.

(iii) Home Loan of Nu. 12.12 million was originally sanctioned on 03/06/2011 to Mr. Rinzin Wandue and Mrs. Pasang Wandue (Account No. 020HOMC000081) for construction of a 3-storied building. At the time of original sanction, estimated cost of construction of the building was Nu. 16.16 million, as certified by the Civil Engineer of BoB. The building was required to be completed within 1 year and a reminder was served on the borrowers on 21/11/2012 for non-completion of the building. Subsequently the borrowers submitted a revised estimate of construction cost for Nu. 29.43 million, and applied for additional loan of Nu. 10 million. On that basis the BoB sanctioned additional loan of Nu. 8 million. The building has not been completed up to 31/12/2013 and entire outstanding amount is considered as sub-standard. It appears that sanctioning of additional loan was not made on the basis of proper cost estimation, which escalated to about two times of original estimate within a span of 2 years.

Replies of the management:

The Borrower was unable to complete. The initial estimate by BOBL engineer was based on Bhutan Schedule of Rates (BSR) 2005. Now the new estimate of Nu. 29.42 million was arrived based on revised BSR 2013 and at the same time there was one additional floor. The estimate done by BOBL engineer is enclosed.

Further comments of the Auditors:

Estimation of additional floor should have been done separately instead of the entire building. As the building have been under construction and was to be completed with 2013, cost escalation should have been applied only to cost of additional floor.

(iv) Following Mortgage Loans were sanction to Mr. Phurba:

A/c. No: 020MORT000342 - Sanctioned: Nu. 900,000

Outstanding: 991,451

A/c. No: 020MORT000343 – Sanctioned : Nu. 900,000

Outstanding: 881,341

A/c. No: 020MORT000344 – Sanctioned: Nu. 392,000

Outstanding: 431,224

A/c. No: 020MORT000345 - Sanctioned: Nu. 454,000

Outstanding: 499,912

Application for above loans were made on 17/01/2012 and sanctions accorded on 18/01/2012.

In respect of Loan No. 344, the signature of Mr Phurba as the mortgagee do not match with his signature as the borrower placed on record. In respect of other 3 Mortgage Deeds, guarantor's thumb impressions were taken but those were not supported by necessary declaration letters of the Witness.

Presently the Loans are considered as Loss Asset, but no reminder letter to the borrower was kept on record.

Replies of the management:

Observation noted.

- 1. Bank has since instituted control report for exercise of Delegation of power to avoid misuse;
- 2. Mortgage loan limits have been reduced to Nu. 5 million;
- 3. Disciplinary action has been taken against the concerned;

Further comments of the Auditors: Noted.
